

I understand that the LPFM service may be expanded which could infringe on service of the K-LOVE radio broadcast. I can't tell you in 70 words or less what this station means to my family. It is the most positive, uplifting station on the airwaves and it is affecting my preteen's lives more positively than the trashy FM stations they use to chose. We need more positive in this world and I see more and more bumper stickers all over San Antonio advertising K-LOVE. Why would anyone believe that it is better to take away an encouraging station to replace it with more immoral, negative or simply same old, same old radio? Please consider your actions and how it will truly impact the public and especially children and teens who might be encouraged to behave more positively by listening to K-LOVE over the other garbage on the airwaves.
